

Difference between Access and Snowpass?

There is a difference between Swatch Access and Swatch Snowpass: Snowpass and Access watches are not compatible because different systems are being used (chip and software).

Swatch Snowpass = more that 700 ski stations worldwide, selected stadiums, parkings, swimming pools, etc.
More information on www.swatch.com/snowpass section "Where to use"

Swatch Access = Everything but ski.
Dedicated to special projects (e.g. public transport, concerts, leisure parks etc.)
